THE ENTREPRENEUR

Thinking has two faces Positive and Negative, they are the mothers of thinking. Like - left/right, dark/bright, high/low, loud/quiet there has to be opposites as you cannot identify one without its opposite.

Positive is when you think and act, they must work together, action is required. Everything you touch, do or gain begins with a thought. A car manufacturer designs a car beginning with the thought, it is put on paper then built. So does an Architect, a Clothes Designer, a Glass Blower. An Artist visualises the picture then paints, it always requires action. Like the Nike Advertisement says JUST DO IT.

Just thinking positive is not enough it is a trick to get you to think you are positive, it is your negative side trying to hold on. The action is the final step and negativity fights hard to hold on so think and act.
*****Have You Got It.*****

Negative is when you repeat the thoughts of others as if they are your own, when you assume and do not know, take no action, believe you are unlucky, foul mouth others or their products. I heard, I believe, I'd say, these are lazy dangerous practices. Lots of people believe they themselves are positive but they are the only ones who say they are - No Other.

Negative and Positive are like a junk yard dog and a poodle, if I starve the junk yard dog (negative) he will become sick and weak unable to fend for himself. I do this by giving the poodle (positive) his food, (junk yard dogs don't like poodle food) making the poodle strong and dominant, the junk yard dog is now weak and sick the poodle can be dominant always as long as I do not feed the junk yard dog. This is how many can turn there life around. Practice the positive things, BE AROUND POSITIVE PEOPLE, you will easily recognise them, they will be happy laugh a lot, won't suffer from the me me me me disease, my quality time and they hardly ever moan. So in a nut shell you can swing from negative into positive with a little work on yourself. It will always be you and only you that can do it

It's this habitual way of thinking you must practice try it in the smallest of situations to prove to yourself it works and it will.
